## **Anam Fabrics PVT LTD**

A leading socks manufacturer, delivering a diverse range of high-quality sports, dress, and specialty socks to a global clientele.

F, 528 /B Metroville Rd, Block C Sindh Industrial Trading Estate, Karachi, Pakistan

# HI THERE!

Anam Fabrics (Pvt) Ltd, **established in 1991**, stands as a beacon of excellence in the world of sock manufacturing. With a rich history and a commitment to quality we manufacture **sports, dress, and non slip socks**, exporting to a diverse clientele across **Europe, USA, Canada, and the Middle East**.

**Anam Fabrics**

# ABOUT US

Starting in 1991 with a dual focus on knitted fabrics and socks, we found our niche in the sock world.

Over the years, Anam Fabrics has grown steadily, becoming synonymous with top-notch sock craftsmanship.

Nestled in the heart of the Sindh Industrial Trading Estate Karachi, our **50,000 square feet factory** is a hub of creativity and innovation.

We also have a second office for **sales and marketing**, right in the middle of the city.

Our team of over **700 dedicated professionals** ensures that every pair of socks meets the highest standards.

We not only carry out production under the regulations of **Pakistan labor standards**, but are also **ISO 900:2015 Certified**.

**Trained** by both **local and foreign experts**, our team learned from people nearby and from far away, mixing old and new ways to make socks just right for you.

Today, we have increased our capacity to produce over **12,000 Dozens of socks per day**. That's **4,320,000 pair's a month!**

**Quality is our culture.**

**Anam Fabrics**

# PRODUCT RANGE

We specialize in producing **96 to 200 needles socks**, offering a diverse range of products to meet the varied needs of our clients.

Our production capabilities include automatic **single, or double welt and rib styles such as 3X1, 1x1, 2x2, and 5x1**, tailored to customer specifications.

# OUR FACTORY

**Having grown from 30 knitting machines to over 150 European knitting machines, including fully computerized models - We are a vertically integrated company from knit to pack.**

In House Departments:

- Raw Material Storage
- In house yarn Winding
- Knitting
- Overlock/Stitching
- Turning
- Printing & Curing
- Embroidery
- Boarding/Press
- Quality Control/Inspections
- Packaging

Printing is often used for non-slip socks, for which we have an in-house screen printing unit, along with automatic octopus machines and curing conveyor belts.

We uphold stringent **Quality Control (QC) standards** throughout our entire sock-making journey. At every step, from the initial selection of materials to the final inspection and packaging, our team follows strict protocols to ensure that each pair meets the highest standards of quality

Production Capacity:

**360,000 Dozens Per Month**

**4,320,000 Pairs Per Month**

**144,000 Pairs Per Day**
