# Knitting

To produce knitted fabric of supreme quality, it is imperative that superior quality raw material is procured at competitive prices. At finest quality yarn at Mahmood Group our unit procured for our Garments products in knitting and Woven.

We have dedicated a complete unit of machines for fleece fabrics with additional capability to produce heavy single jersey fabric as well. A variety of fabric such as plain, cross, seeded, textured fleece can be produced at our versatile facility.

Single knit fabric is knitted on four track machines. These machines can produce fabric such as single jersey, P.Q, mesh, drop needle jersey, bird eye jersey etc. also has Lycra attachment equipment for best fabric stretch recovery.

Drop needle and feeder stripe fabric are mostly produced on our inter lock machines which have the capability to produce rib fabrics in addition to Interlock fabrics.
