Special finishes

Water Repellent

Water repellency is a step up from water resistance, which means water cannot easily penetrate the material. Instead, water beads on the outside.

Flame Retardant

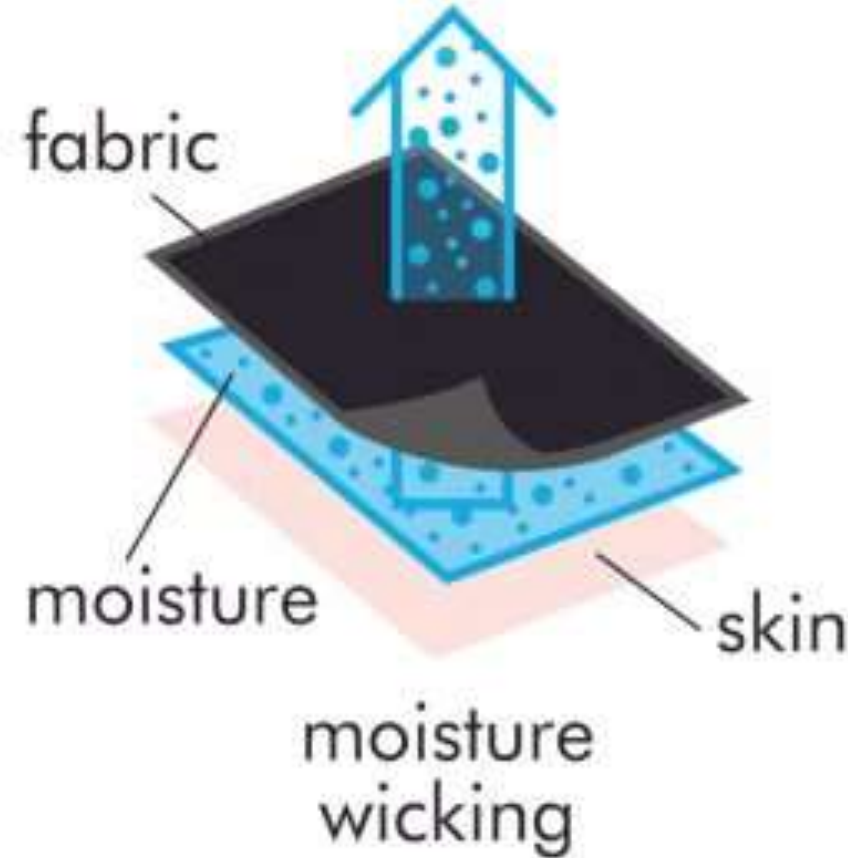

**FLAME
RETARDANT**

A **fire retardant** is a substance that is used to slow down or stop the spread of fire or reduce its intensity. This is commonly accomplished by chemical reactions that reduce the flammability of fuels or delay their combustion

Moisture Management

Moisture management is the ability to transport moisture away from the skin to the garment's outer surface and then cause it to evaporate.

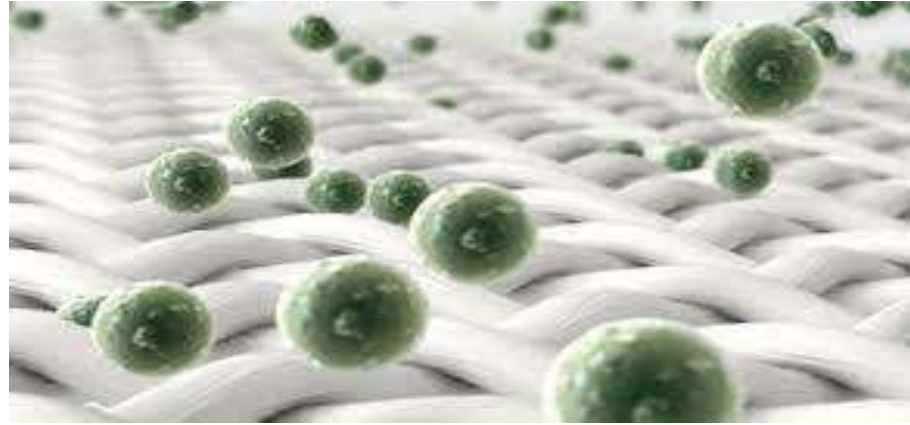

Moving moisture away from the body helps to Regulate temperature.

Anti Microbial

Antimicrobials are products that kill or curb the growth of microorganisms.

This makes them critical tools for preventing and fighting diseases in both people and Animals.
