OUR CUSTOMERS

SUSTAINABILITY

RENEWABLE ENERGY

A significant portion of our factory is currently powered by solar panels, with plans of further expansion in 2024. Our long-term aim is to shift completely to renewable sources of energy.

**CLIMATE
NEUTRAL NOW**

NET ZERO

Delta has signed the pledge to achieve net zero greenhouse gas emissions by 2050.

EFFLUENT TREATMENT PLANT

Our ETP plant, set up in 2008, treats and cleans thousands of gallons of water per day to ensure that our waste disposal is as environmentally friendly as possible.

OUR SERVICES

1. Style Development

Our design team carefully develops new style concepts for you based on the latest trends and your brand's own unique identity.

LEAD TIME: as per your requirement

2. Fabric Selection

We have an incredibly strong fabric supply chain. Based on your style selections and feedback, we then send you fabric swatches for selection from the best mills in Pakistan.

LEAD TIME: 7 days

3. Trims Development

We can develop and counter-match just about any trim you require from our extensive, Oekotex-certified supplier network spanning multiple countries.

LEAD TIME: varies

Design

4. Costing

Once you are satisfied with the style concept, fabric and trims, our team quickly costs the garment, and gives you competitive prices which suit your budget.

LEAD TIME: 1 day

5. Sample Creation

Our world-class sampling team moves to bringing your concepts to reality. With your desired fit, wash, trims and branding, we deliver the garments to your doorstep within days.

LEAD TIME: 7-14 days

OUR SERVICES

1. Fabric Sourcing

We order your selected fabric for bulk production, or we can even give you matching options from our vast stock fabric collection.

Once it is received, each fabric roll is subjected to rigorous inspection before usage.

LEAD TIME: 0-45 days

2. Trims Sourcing

We'll order the trims you require, from our own suppliers or from ones you nominate.

LEAD TIME: varies

3. Sampling

We make SMS, fit, size set and PP samples (as per your requirement), carefully matching the original standards.

LEAD TIME: 7-14 days

Production

4. Bulk Production

Once your samples are approved, we mass-produce your order, taking it from cutting to packing and dispatch, while carefully adhering to your required quality standards at each point.

LEAD TIME: 25 days and above

5. Shipment

After production, quality inspection and packing, the order is finally shipped. We offer FOB, CNF and LDP options for our customers.

LEAD TIME: varies

OUR CERTIFICATIONS

Certified
Facility

At the core of our company is a belief to do business in a humane, eco-friendly and ethical manner, which benefits all the stakeholders, whether it is the workers, the customers or even our suppliers.

To demonstrate our commitment to ethical practices, we have gotten our company certified by numerous globally recognized bodies.

Any other certification can also be done on the request of our customers.
