# Introduction

Stylers Plus (Pvt.) Ltd. Lends credence to Pakistan's status as a premier woven garments manufacturer. We take pride in the fact that we are able to produce garments and apparel of unsurpassed quality. From cut to pack, Stylers Plus is the one stop solution for all your apparel manufacturing needs; in addition to stitching a variety of cuts and styles, we are fully equipped to provide a variety of washes, finishes, embroidery and embellishments for all our products. As a responsible corporate citizen, we go to great lengths to continually improve the social and environmental standards set in our manufacturing facilities. At Stylers Plus we believe in working with the set of integrated values geared towards creating a symbiotic relationship with our employees. These values include a brief in our workforce, teamwork and a quest for continuous improvement. Our environmentally proactive policies and modern machine help us significantly reduce wastage and help keep the environment around us free of refuse and pollutants. As a responsible member of the community, Stylers Plus is SEDEX, BSCI and ISO 14001 certified.

## Fabric Management

The fabric warehouse at Stylers Plus holds an endless variety of woven fabrics set to be used in the production of quality garments. All fabric received at our warehouse is quality checked on international standards for any defects, shrinkages and shades.

CAD System

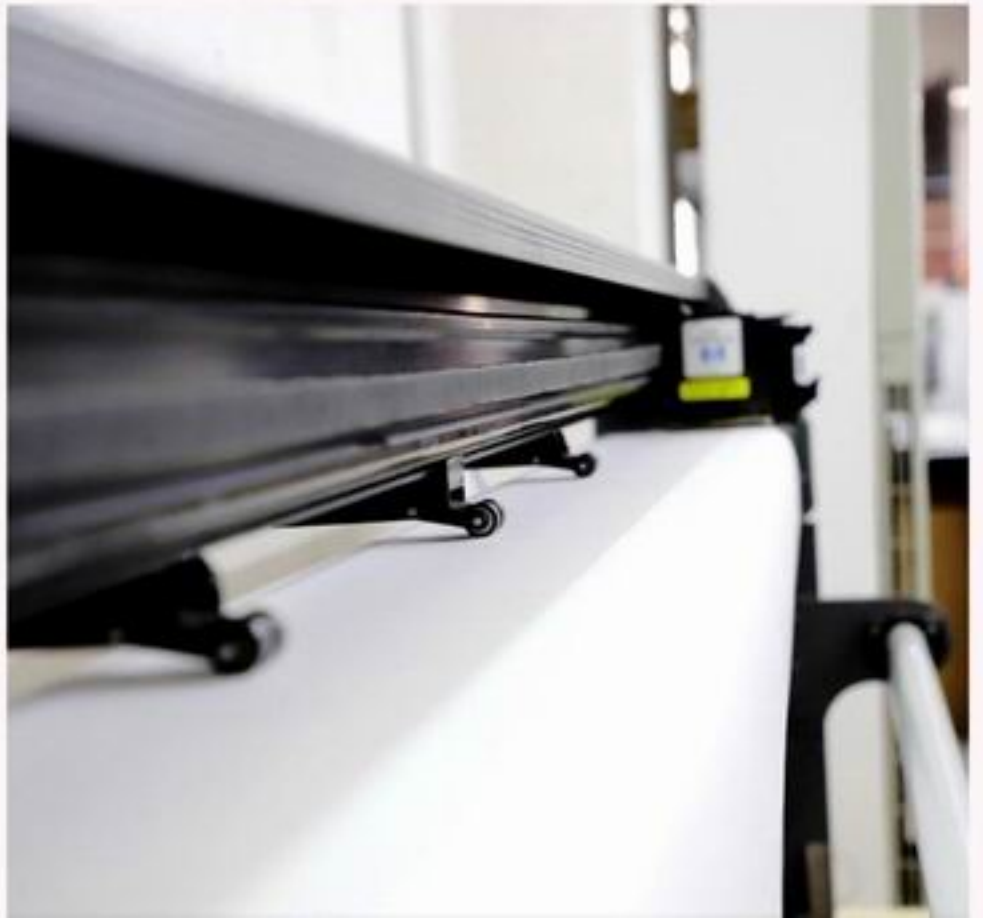

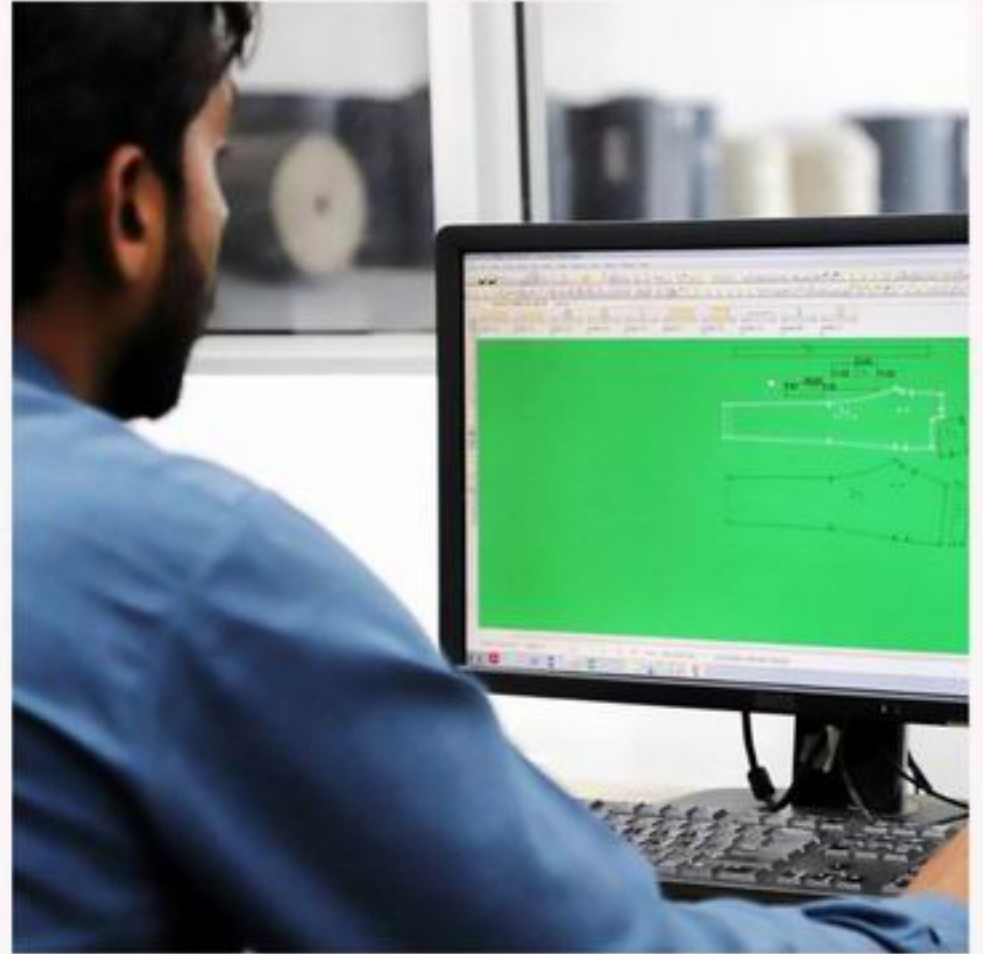

STYLERS PLUS

## CAD System

Stylers Plus employs the use of the industry leading Gerber Garment Technology (GGT) to generate accurate, dependable patterns for all its garments. Use of the Gerber AccuMark system enables our highly skilled marker making staff to lay markers for optimal fabric utilization, while the Gerber AccuPlot system plots approved markers for enhanced control over the cutting of your quality garments. The use of industry leading automated machines ensures consistency and quality in all of our products. The deployment of GGT at Stylers Plus complements our vision of looking towards the future to find innovative solutions for the present.

## Cutting

Aided by Gerber Garment Technology, our cutting department is able to provide a variety of precise cuts to a clientele with diverse tastes and needs. Equipped with industry leading equipment and software our cutting department is tailored to adopt to the changing trends in the apparel manufacturing market. Clients are encouraged to visit our display room where they can personally verify the quality and precision of our various cuts and finishes.

# Stitching

Stylers Plus's three in-house stitching units, each outfitted with a large assortment of fully and semi-automatic sewing machines available to accommodate almost any sewing operation and weight of fabric, allow us to provide clients customized order stitched to exact specifications. Our quality control infrastructure ensures each piece is meticulously assembled and adheres to the stringent quality standards we uphold.

## Dry Process

At Styles Plus we are equipped to provide a number of value added effects to our garments. Our sand blasting stations employ both machine aided and manual abrasion techniques to provide the perfect worn in look and feel for our garments.

# Washing

**STYLERS PLUS**

# Washing

Equipped with the latest industry leading washers from Turkey, the garments wet processing department at Stylers Plus is capable of providing numerous client specified washes ranging from basic stone wash to intricate high fashion washes.

We take pride in the fact that we have the ability and technology to provide clients with the quality washes of their choice. Stylers Plus's facility is also equipped to provide endless garment finishing possibilities ranging from localized abrasions to spread sprays and in house stencil design making operations.

## Buttons & Riveting

Our buttons and riveting department is equipped with the latest auto and semi-automatic machines and includes the availability of local and imported dies for every shape and quality of buttons and rivets. A pull test quality check is performed on required standards with the latest machines approved by the international and local labs.

# Press

At Stylers Plus we strive to achieve the highest standards at every stage of production. Outfitted with the state of the art equipment, the press department, like all other divisions, is equipped with the latest technology and array of machines from the industry leading manufacturers. Our steam toppers, body presses and hand presses with vacuum tables are capable of achieving any kind of press required on any quality of fabric or color.

# Quality

Our detail oriented quality control regimen makes certain that clients receive a defect-free garment. At Stylers Plus, quality is our priority. A vastly experienced and skilled quality control team manually, and with the help of automated machines, inspects each piece of garment before providing their seal of approval. From choosing the fabric to finishing and packaging, stringent quality control processes along each step of the way help us uphold our promise of quality and reliability.

# Finishing

The finishing department at Stylers Plus ensures customers receive their order tagged, bagged and shipped on time and according to their specifications. Our garment finishing department makes sure that every trim is exactly where it needs to be by inspecting every inch of your garment. at Stylers Plus we believe in providing a quality product; our finishing department ensures customers receive a flawless shipment of products every time , on time.

# Health & Safety

At Stylers Plus we are committed towards looking out for the best interest of each member of our staff. The health and safety of our employees is a primary concern and we make every effort to ensure all employees enjoy, modern and safe working conditions. At our production facilities we offer a work environment that encourages safety, innovation, creativity, productivity and success; workers at our premises are provided job stability, open work spaces, high ceilings, conditioned air and a pleasant work environment. Stylers Plus is compliant with all international and local safety standards. To ensure compliance with these standards an elite team of independent safety inspectors regularly visits the facility.

# Social Ethics

It is an intrinsic belief at Stylers Plus that the commitment to our Corporate Social Responsibility (CSR) never wavers. Standing firm among the leaders of Pakistan's garment manufacturing industry, we feel it is our responsibility to set high standards of environmental and social ethics for others to follow. As a responsible corporate citizen, our commitment towards our community and environment can be witnessed through the tangible steps we have taken towards the betterment of both including introducing biodegradable packing for our products. We strongly believe it is our duty to give back to the community and country that has given us so much. Towards the end, Stylers Plus contributes generously to various health, educational and charitable organizations as well as taking the extra step to ensure that the needs of its employees, such as health care are well looked after.
