

TexCycled

About Us:

TexCycled * represents high-quality, ecologically responsible products that are made using a unique manufacturing process that conserves land, water, and energy using recycled, pre-dyed textile wastes, which would otherwise end up in landfills or be incinerated.

TexCycled yarns and fabrics offer a great environment savings due to the fact that no new dyeing process, fertilizer or insecticides are needed - a great sustainable advantages when compared with traditional and organic cotton.

Sourcing textile waste from its collection partners, we can offer end to end traceability and also do toll processing of waste to useable raw material for closing the loop for individual companies seeking sustainability.

PROCESS:

With its own automatic European recycling line, we are sourcing and recycling the following raw materials :

POST INDUSTRIAL COTTON WASTE

HOSIERY CLIPS

WOVEN FABRIC WASTE

DENIM CLIPS

SPINNING HARD WASTE

POST CONSUMER COTTON WASTE (PCW)

JEANS

USED TSHIRTS

USED HOME TEXTILE

PRODUCTS AND END USES

YARN COUNT

№ 10S TO № 30S
NM 13 TO NM 50

KNIT FABRIC COMPOSITION

SINGLE JERSEY/PIQUE - 170 GSM TO 200 GSM
2 END FLEECE - 225 GSM TO 280 GSM
3 END FLEECE - 280 GSM TO 330 GSM

BLEND OF

RECYCLED COTTON POST INDUSTRIAL WASTE (PIW)
RECYCLED POLYESTER POST CONSUMER WASTE (PCW)

RECYCLED COTTON POST CONSUMER WASTE (PCW)
LYOCELL - VISCOSE - RECYCLED WOOL - ACRYLIC

COMPOSITION

PIW RECYCLED COTTON 70% TO 100%
PCW RECYCLED COTTON 70% TO 100%
PCW RECYCLED POLYESTER 30% TO 100%

COLORS

ECRU - BLEACH WHITE - COLORS - NEPPY - TWO TONE

Different counts and blends can be produced on request
