

Quality Fabrics For  
Your Valued Products

**AHMED FINE  
WEAVING**

Since 2001 the name Ahmed Fine Weaving Limited has stood for excellence in textiles.

Modern facilities ensure that customer's exacting standards are met. Our guiding principle was and remains well-considered textile solutions for every individual need.

Up-to-date machinery plus highly-qualified and motivated staff is our source of success in the market.

AHMED FINE WEAVING LIMITED comprises of two weaving units with 264 Air Jet looms including Dobby Looms and two captive Gas Fired Power Plants that provide self-Power Generation of 5 Mega Watts which ensures 24/7 operations at the mills. All Plants are equipped with state of the art latest technology and equipment operated and managed by experienced, motivated and dedicated team aiming to cater needs of our valued clients. With a production capacity of 4 Million meters per month, we offer Woven Fabrics for Fashion, Casual, Sportswear, Industrial, Work Wear and Home Textiles.

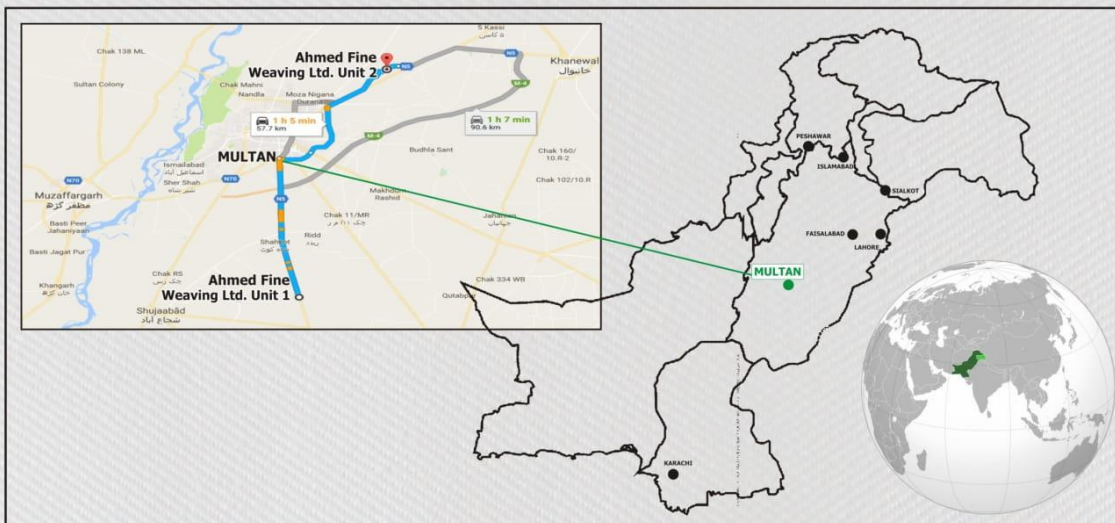

We produce a variety of quality products for the domestic and international market. Quality assurance is made through standard procedures and appropriate testing done at our own lab at various production stages.

Ahmed Fine is proudly rooted in a long history of corporate social responsibility and sustainable practices and strive to uphold full compliance in health and safety, labor laws and government regulations and look forward to a more promising future.

# MACHINERY SETUP

<b>Inspection Packing</b>	04 point American system - Dye able quality. Roll, Bale & Pallets.				
<b>Warping Section</b>	<b>Machine</b>				
Make	Benninger Switzerland				
No. of Machines	3				
Creel Size	1080				
Head Stock	2400mm, 1800mm				
Speed(m/min)	600 to 1200				
Year of manufacture	2001 , 2003, 2012				
<b>Sizing Section</b>	<b>Machine</b>				
Make	Benninger-Zell- Germany				
No. of Machines	2				
Creel Size	32, 24				
Head Stock	2400mm , 4000mm computerized sizing				
Yarn Count	Ne 06/1 to Ne 100/1				
Year of manufacture	2000 ,2003				
Size Boxes	2 (with prewetting system) per machine				
Cylinders	14 per machine				
<b>Air Jet Looms</b>					
Looms	170 cm	190cm	210 cm	340 cm	
Toyota (JAT 810 / JAT 710)	36	126	26	30	
Picanol (Omniplus Summum HP)	-	24	-	22	Total
	36	150	26	52	264
Selvedge	Leno / Tuck-in				
<b>Piece length</b>	upto 3,000 meters without joint				
<b>Inspection Frames</b>	80" , 134"				
No. of frames	39 , 04				
<b>Rolling Machine</b>	8				
Maximum Size	1000Kg. (Jumbo Rolls)				
Palletizing Machine	Pallet Size up to 3500 meter				
<b>Generators: GAS</b>	Genbacher Austria , Waukesha (USA) , Caterpillar (USA) G-3516B - 3520C				
<b>Generators: Diesel</b>	Caterpillar (USA) D-3512 - No. 01, Cummins KTA-50 G3 (USA) - No. 03.				
<b>Yarn Range</b>	Ne 06/1 to Ne 100/1 100% Cotton, 100% Polyester, Poly Cotton, CVC, Poly Linen, Poly Viscos, Bamboo Cotton, BCI Cotton, Organic Cotton, Cotton Nylon, Denier, Dupont Lycra, Spandex Cerora, Elasthane, Tencel, Yarn produced from Supima Cotton, Egyptian Cotton, Cotton USA, CIS Cotton, Australian Cotton & CimA Cotton

## CERTIFICATIONS

All articles of Ahmed Fine are certified Standard Oeko-Tex 100 for Greige woven fabrics made of 100% Cotton, Cotton/Elasthane, 100% Polyester, Polyester/Cotton and CVC.

Since 1992, Oeko-Tex Standard 100 has developed an international regulation of consumer protection in the textile sector. Oeko-Tex is the leader of ecological labels for textile production process.

The Oeko-Tex system guarantees that the tested and certified textiles respect the statutory thresholds of substances that can be dangerous for health.

The products used within the framework of our treatments are GOTS labeled (Global Organic Textile Standard).

This certification ensures consumption of organically grown fibers and their traceability. Organic cotton yarn is used as per requirement.

The Better Cotton Initiative exists to make global cotton production better for the people who produce it, better for the environment.

It grows in and better for the sector's future, by developing Better Cotton as a sustainable mainstream commodity. BCI cotton yarn is used as per requirement.
