

LEATHER SECTOR OF PAKISTAN

Ministry of Commerce
Government of Pakistan

Overview

The leather industry is one of Pakistan's oldest and most well-established sectors, playing a crucial role in the country's economy. It contributes significantly to export earnings and provides employment to a large portion of the workforce. The sector includes tanning, manufacturing of leather products, footwear, garments, and accessories.

The leather sector in Pakistan boasts several strengths, including abundant raw materials, a skilled workforce, export orientation, technological advancements, and favorable government policies. These strengths position the sector well to compete in the global market and contribute significantly to Pakistan's economic development. Continued investment in modernization, sustainable practices, and market diversification will further enhance the sector's competitiveness and growth prospects.
