PROCESSING

One of the largest and most modern processing facilities of Pakistan. With an array of custom-made machinery, it has the capacity to produce 60 million meters of fabric /annum. To ensure that our customers get the very best we use more than 75% dyes and chemicals that are of European origin. To maintain quality and international standards, an on-line Quality department has been setup. The QC department has the backing of a fully equipped Laboratory, which scrutinizes the fabric process flow at all levels.

PREPARATION

Customized fabric preparation is the crucial step towards achieving guaranteed quality, right the first time. The total reliability and quality control in singeing through the process of continuous bleaching & mercerizing is ensured by our hi-tech machines. The total capacity of the machine is 200,000 metres/day

DYEING

We have recently upgraded our dyeing capability with the addition of a modern continuous thermosol dyeing machine which provides top quality dyeing in various techniques of reactive, disperse, vat etc. The total dyeing capacity is 50,000 metres per day.

PRINTING

We have 4 Rotary printing machines with 15 colour options (2 Reggiani + 1 Zimmer+ 1 Stork) and a working width of 3.2 metres having the printing capacity of 160,000 metres per day. The machines are capable of doing standard design repeats of 640mm, 820mm, and 914mm. We have most modern Reggiani Flat Bed Machine as well and can print up to 12 colors.

DESIGN STUDIO & ENGRAVING

We have invested in a state of the art CAD/CAM design studio based on modern computer technology to cater to the customer's demands of ever increasing design complexity and high quality levels. The design team comprises of a strong team of qualified and experienced designers. The design studio complements the ink-jet engraving process which is capable of producing up to 100 screens per day.

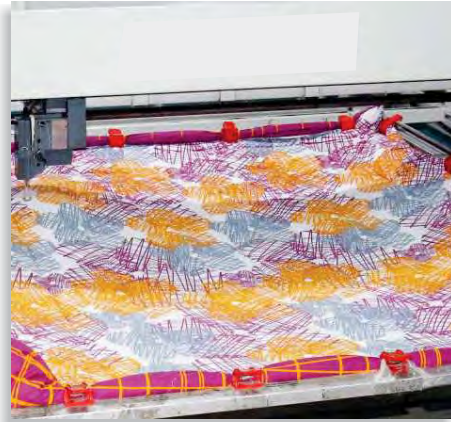

FINISHING

We have a range of excellent stenters machines from Monforts Germany with fully automatic controls equipped with weft straightener from Mahlo. We have got extensive calendaring equipments to provide customize product. The finishing capacity is approx 200,000 metres/day. We do wide range of finishes:

- Chintz
- Complete Range of Teflon Finish
- Wrinkle Free & Non Iron/Easy Care
- Sanitized & Ultra Fresh (Antimicrobial)
- Flame Retardant
- Down Proof
- Silicon Soft Finish
- Full Range of Wellness Finish

QUILTING

We specialize in filled products and feel proud of being the pioneer of quilted bedding in Pakistan. The fiber is processed according to the world health and safety standards. The quilting unit has modern wadding line, multi-needle quilting, single needle quilting & embroidery machines that gives us an edge in producing a wide range of quilted products like comforters, mattress pads, mattress protectors, filled duvets etc.

Our extensive experience and knowledge of fibre chemistry ensures that the wadding quality is consistent with high loft that retains its shape for a long time. The special technique of comforter sandwich stitch is used to attach wadding which helps to prevent wadding movement during washing.

The vacuum compression packaging of filled duvets remains 95% percent resilient to its original shape and size and it helps to save unnecessary volume to keep the transportation cost low.

Kamal TEXTILE MILLS

CUT & SEW

With an array of over 400 modern new generation machines, the stitching department has capacity of up to 40 million meters of fabric to convert into made up per month. The product line is customized to manufacture products of various styles and sizes according to the requirements of our customers.

Product quality inspection detects even the minutest of faults and deviations from the specifications to ensure the consistency and high quality standards of our products. Inline inspection during stitching reduces rework cost & ensure on time delivery.

The Product Range & Capacities Are

● Sheet Sets	400,000	Sets/Month
● Duvet Sets	300,000	Sets/Month
● Comforters	150,000	Units/Month
● Bedspread	50,000	Units/Month
● Filled Duvets	40,000	Units/Month
● Filled Pillows	60,000	Units/Month
● Mattress Protector	28,000	Units/Month
● Curtains	100,000	Sets/Month
● Kitchen Linen	75,000	Units/Month
● Table Linen	75,000	Units/month

QUALITY POLICY & CERTIFICATION

Our quality policy has been developed in partnership with our customers and supplier working together towards continuously achieving high standards in products quality and improvements in service quality.

The quality policy is based on 3 fundamental principles:

1. Ensuring that everyone fully understands and conforms to the needs of the customer.
2. Understanding the process of doing a job and doing it right the first time.
3. Documenting each and every processes, identifying the potential errors and taking necessary action to eliminate them and preventing future error.

We are committed to our quality principles and maintain the necessary quality approvals consistent with our customer requirements. We continuously review and improve our systems to ensure that tasks are completed in the most cost effective and timely manner for the benefit of our customers.
