

COMPANY PROFILE

Multinational Export Bureau

About our Company

A Brief Background

Multinational Export Bureau was established in 1988 as a modest set up, and now exists as one of the Market leaders in the knitted garment and fabric export sector in Pakistan. Multinational Export Bureau is known for its Quality, Integrity, Timely deliveries, Customer service & a 100% commitment to its clients. With two state of the art manufacturing facilities in Karachi, producing up to half a million units of garment each month, MEB not only provides quality products for its customers, but also a peace of mind.

Here at MEB,

We provide unparalleled quality and customer service to our clients. We manufacture high quality Knitted garments, both basic and fashion styles. Our product range includes T-shirts, Sweatshirts, Polos, Pull overs, Zipper Jackets, Henleys, Mock necks, Trousers, Jogger pants, shorts, sleepwear and Active wear for all genders and age groups. We also have vast experience in manufacturing Men's underwear. Our collections for kids and men's garments in particular, are quite exhaustive. Our clientele is spread out all over the world, including US, Europe, Asia etc. We work with world renowned brands & buying houses, supplying them with the best quality garments within the agreed delivery dates.

Our Vision

Multinational Export Bureau aims to be the first choice manufacturing company for all renowned brands in the International Textile market, due to its quality products, innate trustworthiness, versatile capabilities and a general conviction for excellence. In doing so we aim to provide the best working conditions and opportunities to our employees, while also acting as responsible global citizens with regards to the environment and incorporating the highest standards of sustainability.

Our Mission

Our mission is to exceed all our clients' expectations, in regards to quality, customer service, and timely deliveries as well as provide the best working conditions for our existing employees, keep them happy and motivated, while also adhering to and improving upon the sustainability standards of this industry.

Designing & Sampling:

Multinational Export Bureau has an experienced & skilled sampling department that turns all our customer's ideas & inspiration into sartorial masterpieces. We have an extensive sampling process to ensure 100% buyer satisfaction.

Our sampling department produces more than 200 new developments each month, producing over 800 pieces of garments. Our in-house designers also develop new designs for our customers in line with the prevalent market trends.

For sample development, our lead time is 1-4 weeks, depending on style, fabrication, printing & embellishments.

Production

MULTINATIONAL EXPORT BUREAU

MEB has 18 stitching lines equipped with top of the line Machinery, which helps us produce the highest quality knitwear. With 750 stitching machines in our arsenal, we are able to produce more than 500,000 units of garments in a month and more than 6 million pieces per annum. To ensure high levels of efficiency SAM (standard allowed minutes) for each style is calculated and followed. Our state of the art in-house dyeing department has a production capacity of dyeing 400 tons of fabric every month.

Production

MULTINATIONAL EXPORT BUREAU

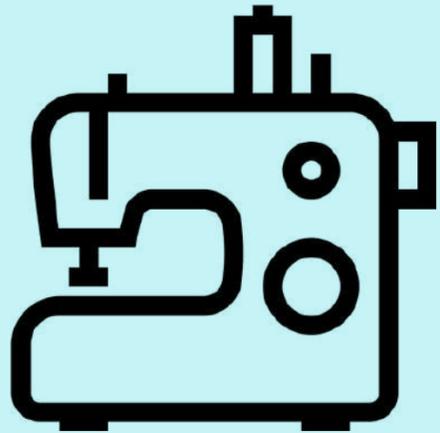

Our in-house laboratory plays a major role in our production processes. For each shade, our laboratory prepares lab dips to submit to the buyer for approval. And for each style in production, quality tests as per buyer's standards are carried out in our well-equipped testing laboratory to ensure

that our Clients quality parameters are being followed.

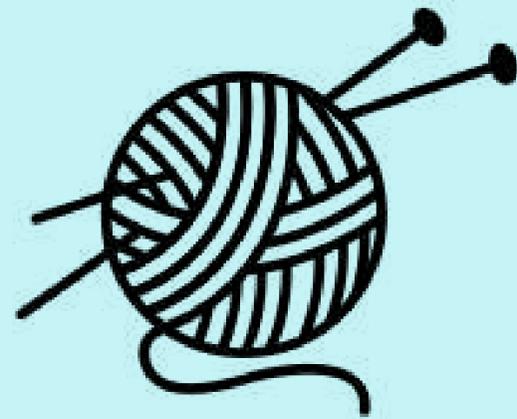

We also have an in-house embroidery department to cater for the embellished styles. This helps us maximize quality control and minimize time wastage.

Quality

Multinational Export Bureau is a quality oriented enterprise. The company dedicates its utmost effort and time to ensure the proper functioning of the control process, so as to consistently provide high quality products and services and minimize all kinds of faults. For this purpose we have a dedicated Quality Control department which consists of highly trained and experienced staff with full autonomy. Each stitching line has its own quality controller. Each fault is recorded into the data base and accounted for and the root cause for that fault is then determined.

CORPORATE SOCIAL RESPONSIBILITY

Here at MEB, we lay huge emphasis on the betterment and welfare of our employees and having an overall positive effect on the society. We understand the importance of education, specially for a country like Pakistan, and for this purpose we actively encourage and fund the education of our employees and their family members. We are also one of the major donors for the "Baithak School" program, which funds primary education for kids from low income families from all over Pakistan.

A photograph of a classroom. A teacher in a black hijab stands at the front, facing a group of young students seated at wooden desks. The students are wearing light blue school uniforms. The walls are decorated with colorful drawings and a clock. The text 'CORPORATE SOCIAL RESPONSIBILITY' is overlaid in white on a dark blue background across the center of the image.

CORPORATE SOCIAL RESPONSIBILITY

Additionally, MEB also plays its part in helping Pakistan heal. Twice every year, we collaborate with different public hospitals for blood donation drives. We try to instill the importance of such activities in the minds of our workforce, who actively engage in these events. We are also proud to be involved with SIUT (Sindh Institute of Urology and Transplantation), the pioneer, free-of-cost health care service in Pakistan, which performs lifesaving medical procedures, without any charge, for thousands of Pakistanis, each month.
