Majmua has also served as a cultural ambassador to the countries where the shows were taken, almost 20 countries. Majmua in the millennium year has made great strides. In a matter of six years it has launched 'Art Pakistan', a magazine on art, culture and heritage as well as produced a series of programs on art and culture under the same aegis. We intend to continue promoting Pakistani art and craft in various ways.

Majmua has raised funds for health and education in Pakistan by participating in numerous charity auctions in Pakistan and abroad. Majmua is also proud to sell works of Jameel Naqsh to The British Museum and Mashkoor Raza to Victoria Albert museum.

Majmua is proud of our Pakistani heritage and rich history and wants to preserve and record the arts through various ways for which special funding will be required and these proposals are under consideration.
