SUSTAINABILITY PERFORMANCE

BISMILLAH CLOTHING commitment towards manufacturing excellence enabled it to sustain and further improve in all areas of safety, quality, cost, availability and sustainability.

We focus to reduce negative impacts and increase value creation potential through continuous improvements in our processes. To retain value creation ability for long term, we believe to utilize the available resources cautiously and manage our activities which adversely affect natural Eco-systems and society.

CLEAN AIR STRATEGIES

BISMILLAH has planted 3,876 trees in total during FY 2020 in its green environment initiative to play its part in the betterment of its surroundings.

This results in sequester of around 85,272kgs of Carbon Dioxide annually and results in mitigating impact of GHG emissions.

ENERGY RESOURCES

Total energy saving by BISMILAH CLOTHING = 7860 GJ

We promote renewable energy , to protect environment and achieve the sustainable development of the society.
